For the life of me I do not see why Thierry Mugler Perfumes/Clarins need to add stronger versions of the body products for Angel? This is like getting out of hand.... 🙄

On the half side I do think Naomi will look beautiful in the glam ads for Angel-

Angel is the last perfume on Earth to need an "Intense Diffusion System."

 Yikes! How long do they think it lasts now?! If it lasts eight hours as they say that would be *shorter* than the time it lasts now--it already lasts for days! I think the folks at Mugler have all become desensitized and can't smell *Angel* any more.

I'm a weenie, I guess: I love ANGEL.

Everytime I spray it on, I think: Wow! this nose really had a *CONCEPT!* Maybe it's suffered from its very overpopularity, but, wow, what a *CONCEPT!*

Now on the far side of fabulous.

(I dunno if I'd go so far as to call it the "first gourmand", though. Would you?)

Saffron: Mum! People do NOT become more 'interesting' the more money they have!
Edwina: They do, darling.

Well, in fairness, they call it the first *oriental* gourmand in the article, although I'm not certain that I would go so far to say even that.

Longer lasting Angel? Good God, the stuff already has a half-life of decades.

That was my first reaction as well. Angel's the last perfume on earth to need a stronger reformulation.

If any thing that needs to be reformulated to last longer is the Angel for men (AMen). I wore this yesterday and it last about 3 hours on my skin until it was gone. For the life of me I don't know why Mugler Perfumes does not create a EDP version for men!

Yet go figure they are making the women's which is already super potent - now mega potent.

Screwed up company!

Mugler in the UK have brought out new testers which are dab and a small square bottle. Believe it or not all the testers are parfum strenght!!! 🙄

A friend who works for Mugler was told by the area manager the testers where parfum. Trouble is people keep lifting them and taking them home.

I tried the A*Men Coffee Extreme and it was half a day before the tissue settled down to something lovely. Before that I thought my nose was going to blow off.
